Sec.352.051. REGULATION OF RESTRICTED FIREWORKS

(f) When a county issues an order restricting or prohibiting the sale or use of restricted fireworks under this section, the county may designate one or more areas of appropriate size and accessibility in the county as safe areas where the use of restricted fireworks is not prohibited, and the legislature encourages a county to designate such an area for that purpose. The safe area may be provided by the county, a municipality within the county, or an individual, business, or corporation. A safe area may be designated in and provided in the geographic area of the regulatory jurisdiction of a municipality if the activity conducted in the safe area is authorized by general law or a municipal regulation or ordinance. An area is considered safe if adequate public safety and fire protection services are provided to the area. A county, municipality, individual, business, or corporation is not liable for injuries or damages resulting from the designation, maintenance, or use of the safe area.
