

# **HUDSPETH COUNTY COMMISSIONERS COURT**

**RUSSELL MOORE**  
Commissioner, PCT 1

**JEFFREY SPARGER**  
Commissioner, PCT 3

**SERGIO QUIJAS**  
Commissioner, PCT 2

**CANUTO MARISCAL**  
Commissioner, PCT 4

**JOANNA E. MACKENZIE**  
Hudspeth County Judge

## **NAMING ROADS AND ASSIGNING ADDRESS NUMBERS STANDARDS ADOPTED WITH COMMISSIONERS COURT ORDER ADOPTED SEPTEMBER 16, 2025**

Prior to 1992, there were no standards to follow the naming of roads and formal guidelines for establishing addresses. Authority to set addressing standards was granted to counties in 1989 through Texas Senate Bill 1091 which amended the County Road and Bridge Act. Section 2.011 (b) of the County Road and Bridge Act, Art. 6702-1, Vernon's Texas Civil Statutes, authorized Commissioner's Courts to adopt their own addressing standards to name road and assign address numbers to property within the unincorporated areas.

### **NAMING ROADS**

Two main objectives should be considered in proposing and naming roads: (1) avoidance of duplicate or similar names and (2) continuity with existing names.

A Hudspeth County Index in a form and content as set forth in Attachment 1 will be maintained under the guidance of the Hudspeth County Commissioners by the Rio Grande Council of Governments. All requests for new road names or road name changes must be presented to Hudspeth County Commissioners Court for review and approval prior to official acceptance thereof in accordance with the Guidelines and Procedures attached hereto as Attachment 3. In order to establish close coordination and provide recommendations to Hudspeth County Commissioners, the Rio Grande Council of Governments and Hudspeth County shall form a 9-1-1 Addressing Committee to review the compliance and non-compliance of county road names identified prior to the adoption of this Court Order. The committee will have varied participation from individuals in Hudspeth County who have experience and a vested interest in maintaining accurate addressing information. The committee will be composed of seven (7) members set forth below. The committee members will be subject to approval of the Hudspeth County Commissioners' Court.

Voting Members will consist of:

1. Hudspeth County Elected Official Representative
2. Hudspeth County Tax Assessor & Vehicle Registration
3. Hudspeth County Emergency Management Coordinator
4. Hudspeth County Sheriff's Office

5. Hudspeth County Chief Appraiser & Appraiser District
6. Hudspeth County Citizen-at-Large
7. Rio Grande Council of Governments 9-1-1 GIS Designee

A copy of the Road Index will be available for public viewing at the Hudspeth County Clerk's Office and the Hudspeth County Appraisal District Office.

## MAINTENANCE AND ROAD INDEX

Based on action taken by the Hudspeth County Commissioners pursuant to requests for new road names, road name changes, or new addresses, the Rio Grande Council of Governments will update the Hudspeth County Index on an annual basis, with copies of the updated Index being distributed to the County Commissioners and each precinct office.

## THOROUGHFARE DESIGNATIONS

The logical, grammatical order of address elements should be road number, pre-directional, primary road name, suffix, post directional, and secondary number if any (e.g. 100 W MAIN ST. SE #201).

## PRIMARY NAME LIMITATIONS

Each primary road name should be used only once, and only in extreme circumstances and after the approval from the addressing committee, should the primary word be reused to name an alternate roadway, as listed in the following except that a short loop or circle may have the same root name as the road it intersects. Multiple names with the same primary name are limited to 3 occurrences (i.e. SNAKE WAY, SNAKE VIEW, SNAKE TREE, SNAKE HILLS). Roadway names should remain consistent along the entire length of a road, even if the road changes direction. However, this consistency is contingent upon not affecting accessibility for emergency services or public access. For instance, if a roadway transitions into a private property, its name should change to reflect that status. If a roadway is not fully documented on a state-licensed survey, it cannot adopt the name of a previously established county road for validation or easement access to the new section without proper documentation that is approved by the commissioners' court. . New subdivisions should continue the name of an existing road or a previously approved name on an adjoining plat. Non-specific addresses such as corner location addresses are not permitted (e.g. MAIN & 1<sup>ST</sup> STREET).

## ROAD SUFFIXES

The use of thoroughfare designations as a locational device is a simple method for providing a uniform designation of roads of different types within the same jurisdiction. A suffix or thoroughfare designation is not required, but if used, it should conform to the definitions that follow:

### BOULEVARD

A road divided by a landscaped center island. A road with a median reflecting the boulevard character implied in the name.

#### COURT

Permanently closed road such as a cul-de-sac. A minor road less than 500 feet in length, ending in a turnaround.

#### DRIVE

Winding thoroughfares. Roads that meander about and continue through to other right-of-ways.

#### FARM TO MARKET

State primary-numbered roads.

#### HIGHWAY

Designed state or federal highway. U.S. routes are designated as highways.

#### INTERSTATE

Roads of the highest order, characterized by limited access, wide right-of-way, prohibited adjacent development, and with through-traffic preference.

#### LANE

Secondary roads connecting with each other. Reduced right-of-way branching from courts, places, or ways.

#### LOOP and CIRCLE

Loops could be short drives that begin and end with the same road. Circles are short roads that return to themselves; circular or semicircular roads.

#### PARKWAY

A special scenic route or park drive, generally designated by a name.

#### PATH

A minor local road running in a diagonal direction.

#### PLACE

A cul-de-sac or permanent dead-end road. May indicate the direction and to some extent the location of minor or dead-end roads lying between thoroughfares.

#### ROAD

Limited thoroughfares that are frequently used, have heavy traffic volume, and run in any direction.

#### STREET and AVENUE

A basic principle is that streets and avenues run in different directions. Streets run north and south and avenues run east and west, but this may be reversed as long as a uniform designation is followed within the same jurisdiction.

#### TRAIL

Any curvilinear road. A diagonal local road serving as a collector for one or more local thoroughfares.

## WAY

Diagonal road less than 1,000 feet in length. A minor road that changes direction or begins and ends on the same thoroughfare.

The use of thoroughfare designations alone to facilitate locational access will be inadequate in all but the smallest of communities, but the use of designations within this standardized application will be beneficial.

## USE OF ABBREVIATIONS FOR ROAD SUFFIX OR THOROUGHFARE DESIGNATIONS

The U. S. Postal Service standard abbreviations will be followed. See Attachment 2.

## PRIVATE ROADS

All private roads with multiple family structures must be named and specific addresses must be assigned to each family structure. If the private road has only a single-family structure, and the entrance to the private road is from a named road, then the private road will be treated as a driveway and an address assigned at the drive with the road name being that of the named road. If a private road with no structures leads to one or more private roads with multiple structures, then the private road must be named.

A Hudspeth County Road Index in a form and content as set forth in Attachment 1 for private road names will be maintained under the guidance of the Hudspeth County Commissioners by the Rio Grande Council of Governments. All requests for new road names or road name changes must be presented to Hudspeth County Commissioners Court for review and approval prior to official acceptance thereof. A copy of the Road Index will be available for public viewing at the Hudspeth County Clerk's Office and the Hudspeth County Appraisal District Office.

## DUPLICATE ROADS

Duplicate roads will not be allowed as defined in the following examples because confusion can be caused as to the correct location of an emergency, which could significantly delay response time. Also, a duplicate name could prohibit proper routing of calls.

A DUPLICATE ROAD can be defined as one which has the same name as another road and matches the description in one or more of the following cases:

CASE 1: Road name sounds alike, yet is spelled differently and is in an area served by the same Law Enforcement, Fire and EMS agencies. KATHY LANE compared to CATHY LANE; WILD WOOD DRIVE compared to WILDWOOD DRIVE.

CASE 2: Road name is plural. GREEN PASTURE ROAD compared to GREEN PASTURES ROAD.

CASE 3: Road has the same primary name, yet it has #1, #2, A, B, C, etc., as a suffix. JONES ROAD compared to JONES ROAD #2.

CASE 4: Road is within the same Postal Delivery Office and may span numerous zip codes and have the same primary name with a non-distinguishable suffix or a suffix omitted. DIRT TANK ROAD compared to DIRT TANK DRIVE; MAIN compared to MAIN STREET.

CASE 5: Road is within a different Postal Delivery Office from the potential duplicate road; however, both roads are served by the same Law Enforcement, Fire and EMS agencies.

CASE 6: Road is not contiguous or does not connect and make a continuous road. SMITH ROAD is intersected by Interstate 10; however, there is no underpass or overpass connecting the two segments of road.

CASE 7: Road has a directional. These are often confusing if the directional is omitted in request for service and can result in emergency services being dispatched to the wrong location. 420 NORTH MAIN compared to 420 SOUTH MAIN.

### ROAD NAME CHANGES

Proceedings may be initiated by either a petition of the directly affected property owners or a County Commissioner of the jurisdiction in which the road is located. The following reasons should be adopted as reasons for which a request for change will be considered:

Technical: to establish continuity; eliminate duplication; correct misspelling; enhance ease of location; improve coherence of road numbering system; or provide a needed roadway designation such as a circle or loop.

Neighborhood Enhancement or Recognition: to recognize a person or organization; to favor a neighborhood association with its location, history, or area characteristics.

### NUMBERING SYSTEM

The method of assigning numbers is based on a grid system the center of which will be the County Seat. The first step will be to determine the point of origin for each road and consistently number in equal increments from that point of origin. Addresses will be assigned based on the intersection of the driveway with the main road. This numbering system is based on relatively small, equal intervals and provides the capability to assign numbers as needed regardless of the lot size of the existing properties. This is especially important in unincorporated areas, since much of the property may be undeveloped.

### BLOCK LENGTH

The principal concerns are consistency, to the extent possible, and the ability to assign numbers in a 10.5 foot length on block frontage. Existing addresses or road layouts may require adaptation to a different block length in part of the area to be addressed. The recommended standard is ten blocks per mile or approximately 528 feet for a practical length.

### FRONTAGE INTERVAL

Assuming approximately 528 foot blocks, 100 numbers per block (50 separate numbers for each

side), there is a potential for assigning a number for each 10.5 feet.

#### EVEN-ODD ASSIGNMENT OF NUMBERS

If the project is extending addresses on an existing road, follow the same numbering system on each side of the road. Odd numbers should be assigned to properties on one road side and even numbers should be assigned to properties on the other side. As you increment up, even numbers should always be on the right and odd numbers should always be on the left.

#### LONG DRIVEWAYS OR PRIVATE ROADS WITH ONLY ONE STRUCTURE

Long driveways or private roads with only one structure should be assigned the address at the juncture with the main road.

#### OTHER NUMBERING GUIDELINES

Multi-unit structures should use individually addressed primary numbers whenever possible. Avoid primary road numbers longer than five characters. Fractional addresses should not be allowed (e.g. 101 ½ Mesquite Lane). Do not use alphanumeric primary address numbers (e.g. 103A Centerview). Do not use hyphenated primary or secondary address numbers (e.g. 23-423 DIRT TANK). Avoid road numbers that are the next sequential even or odd number (e.g. 102 Agave Grove, 104 Agave Grove does not allow for division or development of adjacent properties).

#### CONFLICTING NUMBERS

Any old number in conflict with the number given by the agency specified by the Court to maintain this system shall be removed and any person refusing or neglecting to remove same shall be guilty of an offense.

#### WHERE AND BY WHOM ROAD NUMBERS ARE TO BE AFFIXED

A) To ensure uniformity and regularity in the numbering of structures, it shall be the responsibility of the owner of any structure fronting on a named road to place numbers on the structure in so conspicuous a manner that the number may be easily discernible from the opposite side of the road.

B) If any structure shall be located too far back from the road for a number on its front to be easily seen and read from the opposite side of the road, or the front of the structure is hidden, or the view obstructed by trees, plants, shrubbery or other objects, then the number of such structure and premises shall be placed on a plank or post in a conspicuous part of the premises whereon the structure is located.

#### SIZE AND SPECIFICATIONS FOR ROAD NUMBERS

A) Each number shall be of a durable material.

B) All numbers painted on curbs or driveway approaches shall be black on a white rectangular background, and of a durable and waterproof finish.

C) The numbers shall be a minimum of three inches in height.

D) The numbers may be on the driveway approach or curb. If the lot has no front driveway, the numbers shall be centered on the lot.

## SIGNS

A road sign and a residence or structure marker complete the link between assigning addresses and locating structures. All named roads should have a sign. It is recommended the following standards be met for all road signs:

### Material:

Engineer grade reflective sheeting on aluminum or equivalent quality 6" sign blank.

### Color:

White lettering on green background for county roads.

White lettering on blue background for private and public roads not maintained by the County.

### Size and Lettering:

Use 3" or larger Series C (or B) upper-case letters on 6" street name sign blank (flat blade).

Use 2" Series C (or B) upper-case letters for Lane, Loop, Circle, ext.

Use 2" Series C (or B) numbers positioned in the bottom right corner of the sign to designate the block number.

### Visibility:

The sign should be free from any bushes, limbs, etc. that may inhibit its clear view.

### Placement:

Reflecting signs shall be installed at all intersections and at other points where appropriate along the road. Signs shall be placed on approved metal posts 5' above the pavement in accordance with the Texas State Department of Highways and Public Transportation Standards and at the expense of the developer.

Any issue not addressed in these standards shall be resolved using the guidelines presented in either:

(1) the Addressing Handbook for Local Governments produced by the State of Texas Advisory Commission on State Emergency Communications; or

(2) the Street Name and Service Location Addressing Guidebook produced by the Rio Grande Council of Governments.

## INFORMATION UPDATES

All residences/businesses/other buildings requiring an address and all road naming (or road name

changing) should be directed to the Rio Grande Council of Governments 9-1-1 Addressing Program in accordance with the Guidelines and Procedures attached hereto as Attachment 3 in order to ensure consistent addressing and naming systems for purposes of providing an effective emergency response system.

## **ATTACHMENT 3**

### **ESTABLISHING A PRIVATE ROAD (Residents)**

In order to establish a private road name in Hudspeth County, the residents of the road must provide the Rio Grande Council of Governments 9-1-1 GIS designee a plat or survey of all property owners along the road in question. In the event there is only one landowner or one owner of the private road that can provide documentation of ownership, the owner can name the road. The owner can pass the naming rights to the other landowners along the private road for a petition vote of a road name (Attachment 3-1). All residents along the road must agree on a road name to be submitted to Hudspeth County Commissioners Court.

Residents will submit three road names to the Rio Grande Council of Governments 9-1-1 GIS designee. The Rio Grande Council of Governments 9-1-1 GIS designee will verify that the proposed name does not duplicate with road names already in use in the county. The road name will then be submitted to Commissioners Court for consideration.

The naming of a private road for 9-1-1 emergency response and postal mail delivery in no way assumes that the private road in question will become a county road. Even if the private road meets all Hudspeth County road and subdivision specifications, it is the sole decision of the Court to designate the road as a county road or a private road.

#### **Step 1:**

The residents living on or owning property along the road to be named will submit at least three road name suggestions to the Rio Grande Council of Governments 9-1-1 GIS designee. No duplicate, confusing, offensive, or proper names will be considered.

#### **Step 2:**

The Rio Grande Council of Governments 9-1-1 GIS designee will review and make a recommendation to Commissioner's Court for their approval of the private road name.

#### **Step 3:**

Once the Commissioner's Court has approved or rejected the name for the new private road, the Rio Grande Council of Governments 9-1-1 GIS designee will contact the parties involved.

Attachment 3-1 contains detailed instructions for submitting a new private road name.

## ATTACHMENT 3-1

### Instructions for submitting a private road name application:

1. Prepare a list of possible road names. The maximum length for a road name including spaces and the appropriate suffix abbreviation is 17 characters. Please keep in mind that confusing and offensive names or proper names will not be approved. Also, duplicate road names within your County will not be approved. Only Lane (Ln), Drive (Dr), or Trail (Trl) suffix will be considered for private road as defined in Attachment 3 Selecting a proper road name suffix. After the list has been created, contact the Rio Grande Council of Governments 9-1-1 GIS designee at 915-472-1904 with your primary new road name choice and three alternate choices for a preliminary review of the road names prior to circulating a petition.

**Changing the suffix of a name does not constitute an alternate choice. For example: Dirt Rd, Dirt Dr, Dirt St, Dirt Ln**

2. Prepare a petition, which contains the signatures **of all the landowners** adjacent to the road or easement (in its entirety). You may use the attached petition.
3. Supply a **recorded** legal description or a recorded map describing the road to be renamed.
4. Prepare a map showing directions to the location of the road to be renamed.
5. Supply a complete mailing list of all landowners adjacent to the road, so that we may contact all affected parties. The circulator of the petition must certify that, to the best of their knowledge, the information is complete and accurate.
6. Compose and submit a letter stating your reasons for requesting a road name.

If you have any questions regarding the road name change process, please contact the the Hudspeth County Judge's Office at 915-369-2321 or the Rio Grande Council of Governments at 915-533-0998 x 119.

***If any of the above steps have not been completed, the road name change application will not be accepted. Acceptance of the application does not guarantee approval of the road name change. The adjacent property owners will receive written notification informing them of the status of the application.***

## PRIVATE ROAD NAME PETITION

“We the undersigned, petition the Rio Grande Council of Governments 9-1-1 GIS designee and Hudspeth Commissioners Court to name our private road: \_\_\_\_\_ is the proposed name.

\_\_\_\_\_  
Attached are the legal descriptions for the above-referenced roadway.”

**Please provide *at least three (3)* alternate road name choices.**

**Alternate road name choices are as follows: (Changing the suffix of a name does not constitute an alternate choice. For example: Dirt Rd, Dirt Dr, Dirt St, Dirt Ln)**

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_

**OWNER NAME (Printed Name)/ SIGNATURE / DATE**

- 1) \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_
- 2) \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_
- 3) \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_
- 4) \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_
- 5) \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_
- 6) \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_
- 7) \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_
- 8) \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_
- 9) \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_
- 10) \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_

Petition circulated by \_\_\_\_\_ Date \_\_\_\_\_

**\*\*\*Once the Addressing Unit receives a complete packet from you, the process may take a minimum of 8 - 12 weeks, which includes a 2-week review for property owners and reviewing agencies. The process could take longer depending on objections if they are received.\*\*\***

## **ATTACHMENT 4**

### **ESTABLISHING A PRIVATE ROAD (Subdividers)**

**In order to establish roads in a subdivision, developers must file a plat with proposed subdivisions and road names.**
