

Hudspeth County Public Information Requests

The Texas Public Information Act establishes requirements for governmental bodies to respond to written requests for access and/or reproduction of public information. The Texas Public Information Act does not require governmental bodies to create new information, perform legal research, or to answer questions. The request must ask for records or information already in existence. Please be advised there may be a charge for copies of public information in accordance with state law.

How to Submit a Request

Because the Texas Public Information Act is only activated by a written request for documents, all requests for copies of Hudspeth County records must be in writing and submitted in the following manner:

Mail request to:	Hudspeth County Attorney's Office
Email:	apinela@co.hudspeth.tx.us
Hand delivery request to:	Hudspeth County Attorney's Office 109 Millican, Sierra Blanca, TX 79851

If you wish to submit a Public Information request by mail, email, or hand delivery, please use the following downloadable form: (You will need to download the form, fill the form out completely, and submit a properly completed form by your preferred method of submission.) In Hudspeth County, every elected official is the custodian of their own respective records.
