

**Engineering Services for Well Field and Booster Pump Station Improvement Project**

Hudspeth WCID #1 seeks qualified engineering firms to provide professional services for the Well Field and Booster Pump Station Improvement Project. The selected firm will oversee the project's design, permitting, and construction oversight. Hudspeth WCID #1 will accept sealed Statements of Qualifications for the preliminary engineering report and environmental assessment until 5:00 P.M., June 01, 2025, in the Hudspeth WCID #1 office; P.O. Box 188 Sierra Blanca, Texas 79851; (915) 369-2221. SOQs received after this time will not be considered. I appreciate any submittals before that time.

Statements of Qualifications will be recognized by Hudspeth WCID #1 on June 25, 2025. The utility will evaluate all proposals beginning on June 25, 2025.

The top-ranked firms will be notified by e-mail and/or telephone. The Water Board members will make final selections; price and professional services contract negotiations will commence on June 25, 2025.
